Lake Fact Sheet – Parry Sound District

Lake 24

Fisheries Management

Fisheries Management Zone: 15

Designation for Lake Trout Management: ..... not designated

Fishing Regulation Exceptions ..... no lake-specific exceptions

Current Stocking: ..... none

Historic Stocking (last year stocked): ..... brook trout (1965)

Contaminants (species tested): ..... no testing done

Assessment: Completed Projects:

1972 lake survey

Synopsis

Lake 24 was stocked regularly with brook trout from 1942-1965. The 1972 lake survey reported strong evidence of natural reproduction of brook trout occurring in the lake. The current status of the fish community in the lake is largely unknown as no assessments have been performed on the lake since 1972. It is assumed, however, that brook trout still remain in the lake today.
