Beast Lake

Fisheries Management

Fisheries Management Zone: 15

Designation for Lake Trout Management: ..... not designated

Fishing Regulation Exceptions ..... no lake-specific exceptions

Current Stocking: ..... none

Historic Stocking (last year stocked): ..... brook trout (1963)

Contaminants (species tested): ..... no testing done

Assessment: Completed Projects:

1972 lake survey

Synopsis

Beast Lake is a small lake located just north of Fletcher Lake in McClintock Township. The lake survey (1972) indicated that although Beast Lake was stocked with brook trout for many years, the stocking never produced a successful brook trout fishery in the lake. It is possible that wild brook trout occur as they are known to be present in the Quiver Creek watershed.
